CCP PROJECT

PROJECT IDEA : BANKING SYSTEM WITH ATM.

Key Features:

*)User can create their account and set his password to used ATM

*) User can used ATM with Both Debit and Credit Card.

*) User can avail All features Like Deposit, WithDrawl, Check Balance,etc.

*) User can Get a slip after its Transcation if it required.

*) If user want a slip so the Fees deducts from its balance.

*) We also apply a Safety Checker in which if the user enter the password in the Reverse order then it card blocks and no payment Proceeds.
